

Rent Manager XP Small Business Edition

System Recommendations / Last updated 06/01/04

System recommendations are subject to change. Before making any purchase or installation decisions, ensure you have the latest recommendations and consult your sales associate.

workstation recommendations	
operating system	Windows 98SE, Windows ME, Windows 2000, Windows XP are supported.
processor (CPU)	500 MHz as a minimum; 1Ghz or higher preferred
memory (RAM)	64 MB minimum; 256 or higher preferred
disk space	150 MB minimum for program and system files; plus 500 MB free disk space for processing activities
monitor	SVGA
display	800 x 600 resolution, 16-bit minimum; 1024 X 768, 32-bit preferred
operating system printers	London Computer Systems does not make specific printer recommendations. Reports and forms in LCS products are specifically designed and tested with HP LaserJet printers. Results with other printers may vary. Speed, quality, and usability are generally best achieved with more recent printer models. Updated printer drivers, available directly from the printer or operating system manufacturer, may be necessary for compatibility with London Computer Systems products. Consult with reputable vendors and suppliers to determine the best choice for your organization's needs.

server recommendations (not required)	
operating system	Windows 2003 Server, Windows 2000 Server, Windows 2000 Advanced Server and Windows NT 4.0 Server are supported. SP3 is required for use with Windows 2000 Server and Windows 2000 Advanced Server. SP6 is required for use with Windows NT 4.0 Server.
network	Minimum 100MB Ethernet network; 1 GB Ethernet network recommended for larger databases
processor (CPU)	<ul style="list-style-type: none"> • 800 MHz minimum for small networks (fewer than 3 users) and/or small databases • Larger networks and databases require faster processors. • If you run more than one client/server application on the same server, that server needs to exceed the minimum recommendations for optimal performance.
memory (RAM)	512 MB minimum. More memory may be required for databases larger than 1 GB.
disk space	650 MB minimum for the Rent Manager program, system, and database management console files; plus 500 MB for the workstation deployment files, which can be installed in a different location. Additional space is required for the database. Note: Requirements vary, depending on the number of records and the additional modules used.
hard disk	A high performance SCSI or Serial ATA disk subsystem is recommended for larger databases with higher user loads and activity.
